

The Fault Box Directions

1. Color the landscape grass, river, road and RR appropriately.
2. Give each rock layer (X, Y and Z) a unique color or pattern.
3. Cut along the outer edges to free the box from the paper.
4. Fold down the rock layers to form the sides of the fault box.
5. Fold then glue or tape the glue tabs to secure the box shape.
6. Cut the fault box along the fault line.
7. Write your name and period on the inside of both box halves.
